

Ocean by H10 Hotels to Debut in Jamaica with 800 Luxurious Beachfront Rooms

Ocean by H10 Hotels is expanding its all-inclusive vacation brand in the Caribbean with the debut of two new beachfront resorts in Jamaica in 2018.

The company announced it would develop two new resorts near Falmouth, Trelawny. Riding the popularity of its family-friendly resorts in Punta Cana, Riviera Maya, and Cuba, the first phase of development will feature 425 luxurious rooms along the beaches of Jamaica's northern coast. Ocean by H10 will expand its adults-only offering with the premier of the second phase, a hotel with 375 oceanfront accommodations.

Falmouth is home to some of Jamaica's most beautiful white-sand beaches, and lies between the more populated tourist destinations of Montego Bay and Runaway Bay. In Jamaica, Ocean by H10 Hotels will continue its tradition of contemporary style and superior guest services, blended with unique Jamaican influences and hospitality.

Ocean by H10 Hotels recently announced the opening of its third resort in Riviera Maya, **Ocean Riviera Paradise**, in 2016. Other Caribbean resorts operated by the company include **Ocean Coral & Turquesa** in Puerto Morelos and **Ocean Maya Royale** in Playa Del Carmen, Mexico; **Ocean Blue & Sand** in Punta Cana, Dominican Republic; **Ocean Varadero El Patriarca** and **Ocean Vista Azul** in Varadero, Cuba; and **Ocean Casa del Mar** in Cayo Santa Maria, Cuba.

Established in 2007, Ocean by H10 Hotels is a Joint Venture of H10 Hotels and Vacances Air Transat, a Canadian tour operator. Further resort expansions include properties in Cayo Cruz, Cuba; and Uvero Alto, Dominican Republic.
